

MUHAMMAD AMIN

Software Engineer · Founder of MinLabs · Creator of AgriMind

Jakarta, Indonesia | amin.workspace2026@gmail.com | linkedin.com/in/aminju | github.com/aminju14 | fastwork.id/user/aminju.san

PROFESSIONAL SUMMARY

Software Engineer with 9+ years building production mobile, backend, business systems, and AI solutions — 20+ apps shipped to the Play Store and App Store. Founder of MinLabs, a software studio, and currently building AgriMind, an AI assistant for agriculture. I take software from idea to launch, and keep it running after.

EXPERIENCE

Founder & Software Engineer | MinLabs (Software Studio) (2024 - Present)

- Founded MinLabs, a software studio building products and delivering engineering for startups and businesses.
- Building AgriMind, an AI assistant for agriculture (in active development).
- Deliver mobile, web, backend, and AI solutions end-to-end, from idea to production.

Software Engineer Section Head | PT Triputra Agro Persada (2020 - Present)

- Serving as Software Engineer Section Head, I lead the IT team in designing, developing, and managing various end-to-end application solutions that support business operations.
- Actively analyze requirements, resolve complex issues in running systems, and ensure every application is optimal and scalable.
- Involved in the mobile app deployment process to the Play Store and App Store, while ensuring system quality and stability through monitoring and continuous improvement.

Mobile Developer | PT Indocyber Global Technology (2017 - 2020)

- Responsible for building and developing Android and iOS applications with a focus on optimal performance, usability, and user experience.
- Collaborated directly with users and stakeholders to gather business requirements, translating them into intuitive UI/UX designs and implementing them into stable, efficient applications.
- Active in maintenance, system analysis, app deployment, and technical documentation to ensure long-term sustainability and ease of future development.

Android Developer | PT Swadharma Duta Data (2016 - 2017)

- Focused on developing Android-based mobile applications with a strong emphasis on code quality and user experience.
- Involved in the UI/UX design process, feature development, and app maintenance to ensure peak performance.
- Interacted with users to understand their needs, analyzed existing systems, and provided effective technical solutions to enhance application quality.

EDUCATION

Informatics Engineering

National University | 2012 - 2016

CERTIFICATES

- Certified Android Web App
- Certified Arduino Berbasis Android Mikro
- Certificated of Attendance by AVNET Technology Solution
- Certificated Workshop Augment Reality
- Certified English Access Microscholarship Program by CCE Indonesia
- Certified CCNA Routing and Switching: Introduction to Networks by Cisco Networking Academy

TECHNICAL EXPERTISE

Core Concepts: Microservices, Clean Architecture, Event-Driven, AI Integration, Scalable Systems

Databases: PostgreSQL, MySQL, Redis, MongoDB

Tools & Architecture: Docker, RabbitMQ, System Architecture, REST API, Microservices, Linux, Git
